WORK EXPERIENCE

Frontend Engineer May 2021 – Present
Truparse

- Revamped the company's website to the new version.
- Built and successfully launched the company's digital platform "[Figur](#)", a fintech app used by over 5000 users and designed to empower individuals and businesses in efficiently managing their accounts.
- Build and maintain an internal dispute resolution portal (admin dashboard) used by the team for customer resolutions.
- Built the Figur blog pages.

Frontend Engineer March 2022 – Oct 2022
Viwo

- Developed independent, reusable, and responsive React components with a design system in a component library using Storybook.
 - Implemented unit testing, which covers most of the positive flows in the app, which has now given us more confidence to release new features.
-
